

HEAVY HAUL TRANSPORTATION

Ironworks Machinery has been serving Western Canada's heavy hauling transportation needs since 2009. Our Heavy Haul division serves Oil & Gas, Mining, Pipeline, and Construction industries.

We are capable of transporting loads weighing up to 85 tons using our modern fleet of tractors and trailers. We are also capable of safely hauling over-dimensional loads with the aid of our pilot trucks, certified flag persons, and ample signage, including flags, marker lights, and revolving beacons.
